

Medi-Kool 2.0-S/S Unit

Medi-Kool 2.0-S/S Unit
MK20-S/S

Our second newest line to date! We took the look of the MK747 and we created the MK20-S/S unit! This 2.0 cubic foot sized unit is the virtually the same size as the current MK20 (plastic) however, now built out of high grade stainless steel! This beautiful and durable unit would be ideal to keep those med's climatically controlled!

***** Looking for ONLY a refrigerator? Visit your Medi-Kool unit of choice!**

Designed to keep your pharmaceuticals at a monitored constant temperature, the stainless steel Medi-Kool 2.0 unit is an ideal addition to your emergency response vehicle where appearance, performance, and structural integrity are a must. This unit, like the MK20 in plastic, can be manufactured with the door hinge on the right or left as well as the compressor configured to be on the back (standard), left, or right side. Simply select the model you are looking for and we will ship to you shortly after! Each MK20-SS unit is provided with a removable vented shelf.

Need a push-button lock? We now can use the Simplex 900 Series lock in our cabinets! Choose with our without our standard stainless steel cam lock!

As stated above, the standard unit will Cool AND Heat. Should you require ONLY a refrigeration unit, see the scroll options below. Contact us for any additional information or to order one today! - info@mmair.com.

Additional discounts apply for volume purchases.
